

G32A mutation · SynGO synaptic-localized pathways

Gene rings

Outer ring = D35

Inner ring = D65

Concentric reading:
outer → inner = early → late

Ribbons

GSEA leading edge
(this contrast)

Gene-set annotation
(not in leading edge)

Pathways

SynGO synaptic-localized

- Presyn. Ribosome
- Postsyn. Ribosome
- Presyn. Cytosol
- Postsyn. Cytosol
