

R403C mutation · Synaptic ribosomes nested in broader cytoplasmic ribosome

Gene rings

Outer ring = D35

Inner ring = D65

Concentric reading:  
outer → inner = early → late

Ribbons

- GSEA leading edge  
(this contrast)
- Gene-set annotation  
(not in leading edge)

Pathways

SynGO synaptic-localized

- Presyn. Ribosome
- Postsyn. Ribosome
- Presyn. Cytosol
- Postsyn. Cytosol
- Postsyn. Density
- Postsyn. Membrane

Broader cytoplasmic ribosome / translation

- GO:CC Cytosolic Ribosome
